

REMARKS

This paper is responsive to any paper(s) indicated above, and is responsive in any other manner indicated below.

PENDING CLAIMS

Claims 13-28 and 30 were pending, under consideration and subjected to examination in the Office Action. Appropriate claims have been amended, canceled and/or added (without prejudice or disclaimer) in order to adjust a clarity and/or focus of Applicant's claimed invention. That is, such changes are unrelated to any prior art or scope adjustment and are simply refocused claims in which Applicant is present interested. At entry of this paper, Claims 13-29 will be pending for further consideration and examination in the application.

CLAIM OBJECTIONS OBIATED VIA CLAIM AMENDMENT

Claim 30 has been objected to because of the Office Action concerns listed within the "Claim Objections" section on page 2 of the Office Action. As amendments have been made where appropriate (i.e., the Examiner's suggested claim renumbering was adopted) in order to address each of the Office Action listed concerns, reconsideration and withdrawal of the claim objection are respectfully requested.

NON-STATUTORY DBL PAT. REJECT. - TERMINAL DISCLAIMER FILED

The obviousness-type double patenting rejection of claims 13-~~30~~29 as set forth at page 2 of the "Detailed Action" of the Office Action, is respectfully traversed.

However, in order to travel a path of least resistance to obtaining a patent for the present application, submitted herewith is an executed Terminal Disclaimer to overcome the non-statutory double patenting rejection. As a result of the foregoing, reconsideration and withdrawal of the double patenting rejection of the subject claims are respectfully requested. The above statements, or the filing of any Terminal Disclaimer, should not be taken as an indication or admission that the rejection was valid, but is merely use of a procedural approach to obtain a patent (without prejudice or disclaimer) as quickly as possible given that the present application's patent may have coextensive term anyways as measured from the same original filing date, regardless of the Terminal Disclaimer. Further discussions/arguments concerning such rejection(s), claims and/or reference are left for the future if/when appropriate.

As a final point, it is respectfully submitted as a reminder that, if new art is now cited against any of Applicant's unamended claims, then it would not be proper to make a next action final.

EXAMINER INVITED TO TELEPHONE

The Examiner is herein invited to telephone the undersigned attorneys at the local Washington, D.C. area telephone number of 703/312-6600 for discussing any Examiner's Amendments or other suggested actions for accelerating prosecution and moving the present application to allowance.

RESERVATION OF RIGHTS

It is respectfully submitted that any and all claim amendments and/or cancellations submitted within this paper and throughout prosecution of the present application are without prejudice or disclaimer. That is, any above statements, or any present amendment or cancellation of claims (all made without prejudice or disclaimer), should not be taken as an indication or admission that any objection/rejection was valid, or as a disclaimer of any scope or subject matter. Applicant respectfully reserves all rights to file subsequent related application(s) (including reissue applications) directed to any/all previously claimed limitations/features which have been subsequently amended or cancelled, or to any/all limitations/features not yet claimed, i.e., Applicant continues (indefinitely) to maintain no intention or desire to dedicate or surrender any limitations/features of subject matter of the present application to the public.

CONCLUSION

In view of the foregoing amendments and remarks, Applicant respectfully submits that the claims listed above as presently being under consideration in the application are now in condition for allowance.

To the extent necessary, Applicant petitions for an extension of time under 37 CFR '1.136. Authorization is herein given to charge any shortage in the fees, including extension of time fees and excess claim fees, to Deposit Account No. 01-2135 (Case No. 501.37387CX1) and please credit any excess fees to such deposit account.

Based upon all of the foregoing, allowance of all presently-pending claims is respectfully requested.

Respectfully submitted,
